Apply Today!

“Building Hawaii STEM Workforce for the Future”

- Gain work experience and on-the-job training in the student’s field of academic and career interest
- Develop skills, attitudes and behaviors necessary for success in the workplace
- Develop understanding and effectiveness as a contributing member of the work team

Getting Started

Maui Economic Development Board’s Women in Technology Project partners with industry businesses to create STEM and/or AG related internships. Qualifying individuals will have a valuable opportunity to apply their skills and knowledge in the workplace under the guidance of mentoring professionals. We match an individual’s interests as closely as possible with the needs of our partners.

How to Apply

- 1 Complete Internship Application
- 2 Attach a one-page resume highlighting your academic and professional objectives, work experiences, relevant course work and extra-curricular activities, along with a cover letter explaining your interest in obtaining an internship, your expectations, how this opportunity will help in your career path and any other information you deem relevant.
- 3 Complete SurveyMonkey Questionnaire:
<https://www.surveymonkey.com/r/Intern2016>
